

# Welcome to Vanderburgh County Highlights

## 2005 Edition

This publication is provided annually for each of Indiana's 92 counties, the 11 Economic Growth Regions, and the State of Indiana.

Each publication includes a variety of demographic information: population, education, commuting patterns, labor force estimates, firms and employment by industry, industry wages, and firms and employment by size.

If you need further information about your area, you may call the regional analyst listed below. If you need labor market information for other areas, you will find a map of the regional analysts at the back of this publication and posted on our Internet website under *Resources*.

Additional labor market information is available on our Internet website.

Our website address is <http://www.state.in.us/dwd/inews>

## SUMMARY OF VANDERBURGH COUNTY HIGHLIGHTS

The county's population estimate for 2004 was 173,157, up .7 percent from the 2000 Census total. During this same time period, Indiana's total 2004 estimated population of 6,237,569 was up by 2.6 percent.

According to the 2000 Census, 93,243 people twenty-five years of age or over were high school graduates and/or had post-high school education. This amount represented 83.1 percent of the twenty-five and up county population. Of that population, 21,674 or 19.3 percent were four year college graduates or higher. In 2003, of the 1,369 persons graduating high school that year, 1,143 or 83.5 percent intended to go on to higher education.

A total of 29,768 workers or 22.2 percent of the workforce commuted into Vanderburgh County in 2003. Warrick County sent the most workers into the county. Conversely, 7,492 or 6.7 percent of the labor force commuted to work outside of the county. Gibson County received the most workers from Vanderburgh County.

The estimated average unemployment rate for 2004 was 4.8 percent, below Indiana's annual average of 5.2 percent. The county's unemployment rate was based on an estimated average residential labor force of 90,660. Of that labor force, 86,270 were employed and 4,390 were unemployed.

For the year 2004, there were 106,942 jobs at industries within the county. The largest employing industry in the county was trade, transportation, and utilities with 22 percent of the total industry employment. The education and health services industry (includes both public and private employment) was second at 20.4 percent.

The industry showing the most growth in jobs over the three year period (since 2001) was education and health services, increasing 591 jobs or 2.8 percent above 2001. 19.8 percent of employers in the county employed 20 or more workers and those represented 80.5 percent of all employment.

The all industry average 2004 earnings for the county was \$33,395 per year versus Indiana's \$34,693. The county average wage was an increase of 9.5 percent over the 2001 county industry average wage. Five of Vanderburgh County's 11 North American Industry Classification System super-sectors had annual average earnings greater than the Indiana average for those industries. The county's natural resources and mining industry had the highest average earnings at \$51,114 per year, with manufacturing second at \$45,367, while the industry with the lowest annual earnings number was leisure and hospitality services at \$12,695. The same industries statewide paid an average \$34,117, \$47,638, and \$13,875 per year, respectively.

## NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM TECHNICAL NOTES

For over sixty years, industry information has been compiled using the Standard Industrial Classification (SIC) system. Since 1993, the industry data tables in this publication were classified by SIC.

Beginning with the 2002 issue of the Highlights report, new industry data tables are based upon the North American Industry Classification System (NAICS).

Developed jointly by the United States, Canada and Mexico to produce comparable data, NAICS was introduced in 1997 to replace the SIC system. Because of its' scope and complexity, the transition to NAICS has taken three years to complete and is now effective beginning with 2001.

NAICS provides a more specific classification system reflecting the economy's changing industrial composition. NAICS focuses on *how* products and services are created, as opposed to the SIC focus on *what* is produced.

This reorganization has created breaks in the industrial classification time series. Even though, for example, the Manufacturing industry group is still listed, the current statistical data for Manufacturing may not be comparable to what was previously shown.

*Example: An industrial machine company has its employment offices in a separate building. Those workers may now be listed in the Professional and Business Services industry under NAICS, rather than in Manufacturing. The same is possible for other industries.*

NAICS uses a six digit hierarchical coding system to classify all economic activity. NAICS-United States allows for the identification of 1,170 industries compared to the 1,004 found in the SIC system. NAICS classifications are reviewed every three years. For purposes of this publication, we will be classifying economic activities into 11 NAICS 'super sectors' and 15 NAICS sectors.

\* \* \* \* \*

The following is a listing of the NAICS 'super sectors' we will be using:

**Natural Resources & Mining** includes agriculture, forestry, fishing, hunting, and mining.

**Construction**

**Manufacturing**

**Trade, Transportation & Utilities** includes wholesale and retail trade, utilities, transportation, and warehousing.

**Information** includes publishing, motion pictures, sound recording, broadcasting, Internet publishing, telecommunications, Internet service providers, search portals, data processing, news syndicates, libraries, and archives.

**Financial Activities** includes finance, insurance, real estate, and rental and leasing.

**Professional & Business Services** includes professional, scientific, and technical services, management of companies and enterprises, administrative/support, and waste management and remediation services.

**Education & Health Services** includes educational and health services, health care, and social assistance.

**Leisure & Hospitality** includes arts, entertainment, recreation, accommodation, and food services.

**Other Services** includes repair, maintenance, personal, laundry services and religious, grantmaking, civic, social, and professional organizations and private households.

**Federal, State & Local Government** includes total government employment.

Note: For more information on the North American Industry Classification System, you may refer to the U.S. Census Bureau page on NAICS at <http://www.census.gov/epcd/www/naics.html>
